

MAINTREX

Screen baskets and elements

Maintrex has joined up with screen basket manufacturer and is now supplying screening element to paper process applications.

We have products from pulper perforated plates to pressure screen applications.

Screen elements are designed to meet demanding process condition, due high pressure in screw press application or wear and tear caused by rejects and pulper elements in recycled fiber applications.

We supply parts based on the units models and also manufacture tailors screening elements for clients.

For more information, please contact Maintrex sales.
