

MAINTREX

Type-A

Slice Lips

Replacement for Headboxes

Type-B

Maintrex offers high quality **Headbox Slice Lips** meeting the exact demands of today's paper making standards.

Headbox slice lip is one of the most components in a paper or board machine. It has to be in optimum condition to maintain paper product quality and production requirements.

Headbox slice lip has a significant influence on basis weight profile. A damaged or pitted slice lip may cause saw tooth CD basis weight profile. Periodically replacing the slice lip helps to maintain optimal profile.

Material: Stainless steel AISI 316L
